## Health and Healing

### In Contact With Nature

The Creator chose for our first parents, the surroundings best adapted for their health and happiness. He did not place them in a palace or surround them with the artificial adornments and luxuries that so many today are struggling to obtain. He placed them in close touch with nature and in close communion with the holy ones of heaven.

In the garden that God prepared as a home for His children, graceful shrubs and delicate flowers greeted the eye at every turn. There were trees of every variety, many of them laden with fragrant and delicious fruit. On their branches the birds caroled their songs of praise. Under their shadow the creatures of the earth sported together without fear.

The plan of life which God appointed for our first parents has lessons for us. Although sin has cast its shadow over the earth, God desires His children to find delight in the works of His hands. The more closely His plan of life is followed, the more wonderfully will He work to restore suffering humanity. The sick need to be brought into close touch with nature.

Nature is God's physician. The pure air, glad sunshine, the flowers and trees, the orchards and vineyards, and outdoor exercise amid these surroundings, are health-giving, life-giving. \* **Ministry of Healing**
